1 Installing Expressus

Please advance to procedure 1-1 when you install **Expressus** from setup CD-ROM.

Please advance to procedure 1-2 when you install **Expressus** from self-extracting file on web page.

Free space of 100MB or more on installation drive is required to install Expressus on your PC,.

The system might have to be rebooted at the last of the installation.

Please set it up after terminating all programs.

1-1

When you install Expressus from setup CD-ROM

Insert **Expressus** setup CD-ROM into your CD-ROM drive. Setup wizard will start by an auto start-up function. However, the auto start-up function may be unable to be used according to the situation of a system. For this case, please double-click the SETUP.EXE file which exists in the root directory of CD-ROM.

Please advance to procedure 2-1.

When you install **Expressus** from self-extracting file after downloading from web page.

- (1) Open the home page of Comapplix. <u>http://www.comapplix.co.jp/index_e.htm</u>
- (2) Click [downloads] button.

(3) Click [Expressus download] button.

(4) Click [download] button.

(12) Double-click the saved self extracting file exp_000.exe. A confirmation message whether to install **Expressus** is displayed after running the program.

Please advance to procedure 2-1.

2 Execute an installation

2-1

Read the description onto [Welcome to the Expressus Installation] .

Click [Next] button.

Read with caution the contents of [Softwere Licence Agreement] dialog box.

Click [Yes] button, when you agree.

When [*No*] button is clicked, the setup is canceled.

Read the description onto [Information] .

Click [Next] button.

Because [Selection of Install Language] is displayed, the installed language is selected.

Click [Next] button.

Issued [Serial Number] is input.

Click [Next] button.

If you want to install as a free license version, do not input anything. And click [Next] button.

Choose weather install the license server or not.

Only when you install Expressus in computer which you are going to use as a license server with floating license. choose [*install the license server*].

Click [Next] button.

When Expressus has already been installed, [Overwrite] or [Do not overwrite] is selected.

Read the description onto [Start Copying Files].

Click [Next] button.

The program folder name need not be changed usually.

The copy of a file is started.

After a file copy has been completed [Setup Complete] dialog box is produced.

Click [Finish] button, and the set up wizard will be terminated.

	InstallShield Wizard Complete
	The setup completed the installation of Expressus on the computer.
	If the "Finish" button is clicked, the setup is ended.
InstallShield	< Back Finish Cancel

In order to use Expressus, you have to apply a license and set it up.

Please advance to procedure 3-1.

3 Setting a license

3-1

Set up a license according to the following procedures.

- (1) Checking Computer-ID (using License Tool)
- (2) Applying for a license password (on web page)
- (3) Getting a license password report document (by e-mail)
- (4) Setting up a license password (using License Tool)
- (5) Confirming a license password (using License Tool)

3-2

Checking Computer-ID.

Display a sub menu form [Programs] of [Start] in Windows.

Click [License Tool(English)], and License Tool will run.

The alphanumeric character of "4 digits - 4 digits - 2 digits / 3 digits" displayed on top of [License Tool] dialog box is Computer-ID.

Please transcribe this Computer-ID in [Legal license (Trial license/License migration) application form] on web page with using 'cut and paste' operations.

* Computer-ID is unique to the computer, and the license is issued to computer-ID.

Please apply for the application of a license password on web page of ComApplix.

http://www.comapplix.co.jp/index e.htm

Please advance to procedure 14-1, when you apply for a legal license.

Please advance to procedure 14-2, when you apply for a trial license.

3-4-1

Apply for a Legal license according to the following procedures.

Open the home page of Comapplix. <u>http://www.comapplix.co.jp/index_e.htm</u>
 And, click [legal license application].

(2) Read with caution the contents of [Software License Agreement]. Then click [*Agree*] button when you agree.

(3) [Legal License Application Form] will be displayed. Click [*Apply*] button after input necessary information.

*) Please input the Computer-ID of the computer which you wants to acquire a license in the input item by cut and paste.

*) Please input your e-mail address twice to prevent the input mistake.

By the serial number, we check the contents of a module of the purchased software. Please fill in the correct serial number which we announced to you at the time of shipment of software.

(4) We will send "Regular License Password Report Document" by E-mail in two business days or less.

Please advance to procedure 3-5.

3-4-2

Apply for a trial license according to the following procedures.

(1) Open the home page of Comapplix. <u>http://www.comapplix.co.jp/index_e.htm</u>

And, click [trial license].

- (2) Read with caution the contents of [Software License Agreement]. Then click [*Agree*] button when you agree.
- (3) [Trial License Application Form] will be displayed. Click [*Apply*] button after input necessary information.

*) Please input the Computer-ID of the computer which you want to acquire a license in the input item by cutting and pasting.

- *) Please input your e-mail address twice to prevent the input mistake.
- (4) We will send "Trial License Password Report Document" by E-mail in two business days or less.

Please advance to procedure 3-5.

Setting up an acquired license password.

Display a sub menu form [Programs] of [Start] in Windows.

Click [License Tool(English)], and License Tool will run.

Check whether the license acquisition source currently displayed on the dialog box [License Tool] is [Local]. Click [*Start of License Import*].

The license is taken during Expressus is running. During being log-in ExpressusMessenger (EXPMES), the license is taken and when logged out, the license will be freed.

7 Llicense server migration

7-1

Migrate a license according to the following procedures.

- (1) Exporting of a license on old (Pre-migration) PC (using License Tool)
- (2) Installing Expressus on new PC
- (3) Checking Computer-ID on new PC (using License Tool)
- (4) Applying for a license server migration (on web page)
- (5) Getting a license server password report document (by e-mail)
- (6) Setting up a license server password on new PC (using License Tool)
- (7) Confirming a license server password on new PC (using License Tool)
- (8) Setting up a license server on new PC

7-2

Exporting of a license on old (Pre-migration) PC.

The export procedure is the same as procedure 4-2.

7-3

Installing Expressus on new PC.

The installation procedure is the same as procedure 2.

Checking Computer-ID on new PC.

The way to examine is the same as procedure 4-7.

7-5

Applying for a license server migration.

The application procedure is the same as procedure 4-9.

7-6

Setting up a license server password on new PC.

The setting procedure is the same as procedure 4-10.

7-7

Setting up a license server on new PC.

The setting procedure is the same as procedure 5-11.

8 VRML output command for Expressus (CADCEUS/CADMEISTER script command)

The following explanations are the installation methods to CADCEUS or CADMEISTER and the start methods of the VRML output command on CADCEUS or CADMEISTER.

This command is a command to output the object group of CADCEUS or CADMEISTER as VRML file structurized in the layer on CADCEUS or CADMEISTER.

8-1

Copy 2 files "OBJDIV" and "OBJDIV.ini" which exists in the program folder (It is "C:\Program Files\Expressus" in the standard) where **Expressus** was installed onto

- On CADCEUS: "\CADCEUS\XQT" of the introduction drive of CADCEUS.
- On CADMEISTER: "\CRESTAM\XQT" of the introduction drive of CADMEISTER.

8-2

Method of executing VRML output command for Expressus on CADCEUS or CADMEISTER

Open the port of the object which wants to output. (They must be the current ports, and be current objects.)

Input the following character sequence (capital letter half size alphabetic characters) in the state where no commands are started and a command will starts.

@OBJDIV_E

When the following message is displayed, the command file is not correctly copied or the command start character string is wrong.

[OBJDIV: 0: load-module does not exist.] [1001:-112:F]

Please refer to the command usage manual for the content of the command.

9 Uninstalling Expressus

The following explanations are the uninstallation method of Expressus software.

9-1

Display a sub menu from [Settings] of [Start] menu in

Windows and click [Control Panel].

Click [Add or Remove Programs] in [Control Panel].

9-2

Select [**Expressus**] from [Add or Remove Programs Properties] dialog box and click [Add/remove] button. [UnInstallShield] runs and the program is removed form your PC.
